Coloured Acrylic Coating for Tile and Metal Roofs

This revolutionary coating combines advanced technology developed exclusively by Nutech Paint with the special properties of surface cleaning Nano Technology to deliver superior performance. TileFlex will stay cleaner and retain gloss longer than any conventional acrylic roof coating.

Water Resistant

Prevents Organic Growth

36 Colours

Benefits

TileFlex is specially manufactured to resist the causes of aging, making it a long-wearing acrylic roof coating. It contains highly effective polymer preservatives which provide long lasting broad spectrum, algacide and fungicide while also preventing polymer discolouration and deterioration, and moss and lichen growth. TileFlex is suitable for the collection of drinking water.

TileFlex offers:

- Long-term durability
- UV resistant pigments
- Protection organic growth
- Self-cleaning Nano Technology
- Drinking water safe
- High-gloss finish
- Easy brush, roller or spray application
